**OLAA ASSESSMENT NOTICE**

THE NINTH ASSESSMENT OF Olaa Sugar Co. assessable stock, of 2 1/2 per cent or 50c per share was due on the 1st day of May, 1900, and was delinquent on the 30th day of June, 1900.

The tenth assessment of 2 1/2 per cent or 50c per share was due on the 1st day of June, paying interest of 1 per cent from July 1st and delinquent July 31st, 1900.

The eleventh assessment of 2 1/2 per cent is due today, July 24, 1900, and will be delinquent August 31st, 1900.

The twelfth assessment of 10 per cent or \$2 per share has been levied, to become due and payable on the 1st day of August, 1900, and will be delinquent on the 30th day of September, 1900.

All of the above are payable at the offices of Alexander & Baldwin, Ltd., Judd Building.

JAS. B. CASTLE,  
Treasurer Olaa Sugar Co., Ltd.  
Honolulu, July 2, 1900. 5597

## STOCKHOLDERS' MEETING.

The regular annual meeting of the shareholders of the Hawaiian Fertilizer Company, Limited, will be held at the office of the Hawaiian Trust and Investment Company, Limited, on Wednesday, July 18th, 1900, at 9:30 a. m.

G. R. CARTER, President.  
J. P. COOKE, Secretary.  
(Per G. R. C.) 5592

## MEETING NOTICE.

THERE WILL BE A SPECIAL MEETING of the stockholders of the Inter-Island Steam Navigation Co., Limited, at their office, Queen street, on Tuesday, July 17th, 1900, at 10 o'clock a. m., for the purpose of accepting the amended charter of incorporation, and to transact such other business as may be brought before the meeting.

C. H. CLAPP, Secretary.  
Honolulu, July 16, 1900. 5593

## MEETING NOTICE.

WAILUA AGRICULTURAL CO., LIMITED.

A special meeting of the shareholders of the Wailua Agricultural Co., Ltd., will be held in the rooms of the Chamber of Commerce in Honolulu, on Wednesday, July 25th, 1900, at 11 o'clock a. m.

**BUSINESS:**—Consideration of an arrangement for the sale of a portion of the Company's sugar for a period of three years.

E. D. TENNEY,  
Secretary Wailua Agricultural Company, Ltd. 5594

## MEETING NOTICE.

WAMEA SUGAR MILL CO.

A special meeting of the shareholders of the Wamea Sugar Mill Co., Ltd., will be held at the office of Castle & Cooke, Ltd., in Honolulu, on Wednesday, July 25th, 1900, at 9 o'clock a. m.

**BUSINESS:**—Consideration of an arrangement for the sale of a portion of the Company's sugar for a period of three years.

E. D. TENNEY,  
Secretary Wamea Sugar Mill Co. 5594

## MEETING NOTICE.

EWA PLANTATION COMPANY.

A special meeting of the shareholders of the Ewa Plantation Co., Ltd., will be held at the rooms of the Chamber of Commerce in Honolulu, on Wednesday, July 25th, 1900, at 10 o'clock a. m.

**BUSINESS:**—Consideration of an arrangement for the sale of a portion of the Company's sugar for a period of three years.

E. D. TENNEY,  
Secretary Ewa Plantation Co. 5596

## MEETING NOTICE.

KOHALA SUGAR COMPANY.

A special meeting of the shareholders of the Kohala Sugar Co. will be held at the office of Castle & Cooke, Ltd., in Honolulu, on Monday, July 23rd, 1900, at 10 o'clock a. m.

**BUSINESS:**—Consideration of an arrangement for the sale of a portion of the Company's sugar for a period of three years.

W. A. BOWEN,  
Secretary Kohala Sugar Co. 5596

## McBRYDE SUGAR CO., LTD.

**NOTICE IS HEREBY GIVEN** THAT the eighth assessment of ten (10) per cent (\$2.00 per share), levied on the assessable stock of the McBryde Sugar Co., Ltd. is due on July 20th, 1900, and will be delinquent on August 15th, 1900.

Stockholders will please make prompt payment at the office of Messrs. Theo. H. Davies & Co., Ltd.

(Signed) THOMAS RAIN WALKER,  
Treasurer.  
McBryde Sugar Company, Ltd.  
Honolulu, July 10th, 1900. 5591

## NOTICE TO STOCKHOLDERS

OF—

THE HAWAIIAN ELECTRIC CO., LIMITED.

From July 25th to August 1st, 1900, the stock books of the company will be closed to transfers, and the \$100,000 of increased capital stock will then be allotted as per the by-laws. The fractional shares not adjusted will be sold at auction; and the first assessment of 25 per cent will be due and payable at the office of the Hawaiian Trust and Investment Company, Ltd., on August 1st, 1900.

GEORGE R. CARTER,  
Treasurer Hawaiian Electric Company, Ltd. 5592

## KIHAI ASSESSMENT NOTICES.

**NOTICE IS HEREBY GIVEN** THAT the eighth (8th) assessment of 5 per cent (\$2.50) has been levied and will become due and payable on the 1st day of August, 1900, at the offices of Alexander & Baldwin, Ltd., Judd Building.

The ninth (9th) assessment of 5 per cent or \$2.50 is levied, to be due and payable on the 1st day of September, 1900, at the offices of Alexander & Baldwin, Ltd., Judd Building.

J. P. COOKE,  
Treasurer Kihai Plantation Co., Ltd.  
Honolulu, H. T., July 12, 1900.  
5595-2198-July 12-17-20

## NOTICE.

**NOTICE IS HEREBY GIVEN** THAT Messrs. Jones, Kumale and Enoch Johnson are authorized to collect all moneys due me, or to the firm of W. C. Achi & Co., during my absence from Honolulu.

W. C. ACHI,  
Honolulu, July 2, 1900. 5597  
Judd Building, Fort street.

## NOTICE.

Honolulu, July 2, 1900. 5597  
Judd Building, Fort street.

SCIENTISTS  
IS COMING

Sent by Agricultural Department.

## WILL REPORT ON STATION

Professor Stubbs Will Probably Arrive This Week to Look Over the Ground.

Along with the other advantages of Territorialization Hawaii may have an agricultural and experimental station under the direction of the Department of Agriculture at Washington. The ground will be looked over by Professor W. C. Stubbs of the United States agricultural station, who will probably arrive here on the next steamer. Professor Stubbs will find many acquaintances here. Dr. Maxwell, Professors Shorey and Crawley and a dozen others have been intimately associated with him in the past. The New Orleans Picayune of June 16 has the following concerning Professor Stubbs' mission to Hawaii:

Prof. W. C. Stubbs, of the United States agricultural experiment station, was besieged with visitors yesterday, congratulating him upon his appointment by Secretary of Agriculture Wilson for a very important mission to the Hawaiian Islands in connection with the experimental station there. The rumor had gained some circulation that the professor's mission would take him to Hawaii permanently and cause his loss to Louisiana, and many went to bid him goodbye and express their regrets. The truth of the matter is that Secretary Wilson has been carrying on the very important work of agricultural experiment in the islands, and the stations there have become quite numerous, but are somewhat lacking in organization, and are not doing everything that has been expected of them. As a consequence, the secretary has been compelled to send the very best man at his command in this country to look over the ground and furnish necessary advice after a practical examination of the whole situation. This man is Prof. Stubbs, who is a very capable and experienced man, and his mission is to bring back to the United States a report on the situation, and to see that the professor has been given the best of everything that is possible. Stubbs some days ago to the effect that his demonstrated superiority over every other superintendent or available person had determined the department to ask him to do this work, for which the last congress appropriated \$10,000.

The contents of the above-mentioned letter were communicated to the Picayune man and he asked Prof. Stubbs last night if it were true he had received a letter on the subject from the secretary, and asked to be permitted to see it, but the professor is a very modest man and declined to show the letter, though he admitted that he had received a letter, and that it was very complimentary in its terms. This is not the first time by many that the professor has been complimented by the department. Not many months ago he was told in a personal letter from the secretary that the work of the Louisiana station was such that for proficiency it stood out like Pike's peak in a plain. The professor declined to show this letter or to discuss it, so its contents can only be stated upon hearsay. However that may be, the Louisiana experiment station has made a record which is not equaled by any other, and the men who have had the advantage of Prof. Stubbs' tuition here have gone out from him to fill most prominent positions where such knowledge and services received substantial recognition. He is about to lose his prominent assistant, Mr. Blinn, who leaves him in October to accept a position with a large English sugar-growing syndicate at a salary of \$2,000.

Prof. Stubbs is a most entertaining gentleman when asked about anything connected with his work, but as close as an oyster when asked to talk about his letter. "We understand," said the Picayune man, "that Secretary Wilson has asked you to accept an important mission."

"I received a few days ago a letter from Secretary Wilson, stating that congress had made an appropriation for the establishment of an experimental station in the Hawaiian Islands, and that he desired me to go there, look over the situation and make a report for his guidance."

"What will be the scope of the work there?"

"That will be determined by Secretary Wilson. I suppose after looking me over, I imagine that he desires to establish a station that will be representative of all the agricultural interests of the islands."

"What will be the extent of your investigations there?"

"That will largely depend upon the instructions which I am expecting to receive from Secretary Wilson. I shall try to comply fully with every request that he may make."

"When do you expect to leave, and how long will you be gone?"

"I cannot just now positively say. I wrote the secretary that I would try to arrange my affairs here, so as to be ready for the trip by the 10th of next month. I cannot leave earlier, since my assistant, Mr. Blinn, who is now on leave of absence, will not return before that time, and I may not leave before the 20th of July. In fact, I am waiting for full instructions from the secretary and will be largely governed thereby. I think my own affairs here will permit of my leaving soon after the 10th proximo. However, I will be absent for a month or so, and I suppose a month on the islands will suffice for the proposed investigations, but it may take more or less time. It will take two weeks to go and two weeks to return, and, roughly speaking, I suppose I will be absent about two months."

"Will Mrs. Stubbs accompany you?"

"Yes, she contemplates doing so."

"I will say, incidentally, that I shall use the opportunity to study the sugar industry of the islands, which today is possibly leading the world in its acreage. It will be a most favorable occasion for me to look into the agriculture of the sugar cane and the chemistry and manufacture of sugar. I will not be a stranger in the islands. Besides an acquaintance with many of the planters who have honored me here with visits, I have several former associates of this station and many old pupils of the Audubon Sugar School at work in the station there, or on the various estates. Dr. Maxwell, Prof. Crawley and Mr. Clarke, who were formerly connected with this station, are with the sugar planters' station at Honolulu. Of my old students there, I recall, Shorey, Olding, McQuaid, Fulman, Rodriguez, Collins and Robertson, who are managers and chemists on the different islands. I shall be glad to meet them again, and anticipate much assistance from them in gathering data for my report."

"Dr. Maxwell has recently been elected director of the station soon to be established in Oahu, and will leave for his new duties in October. He is now getting \$2,000 per year, and will receive

\$2,000 in his new office. Mr. Blinn, who has been with me since his graduation at the Louisiana State University, at Baton Rouge, in 1891, and who is now my assistant on this station, will take Dr. Maxwell's present position in October. Of course, I regret deeply the loss of his valuable services to this station and to Louisiana, but I am glad to know that he is so highly appreciated as to be selected without his knowledge or seeking for such a responsible and lucrative position, for which there were naturally so many aspirants."

Professor Walter Maxwell, on being asked concerning Professor Stubbs' mission said that the latter undoubtedly came only to report the situation and to establish an experimental station. "The Agricultural Department of the United States has not created any station here as yet," said Professor Maxwell, "but may do so in the near future. Such a station would be of great value to Hawaii."

## Hilo Ambitions.

The latest in the development of newer Hilo is the report, well authenticated, that a new paper is to be started in Hilo. Looking back over the early life of the Tribune and Herald, a dividend of one per cent at the end of five years is predicted.—Hilo Tribune.

## MEET TONIGHT

Republican Territorial Committee.

Members or Proxies From all the Islands Will Be on Hand at 7:30 o'Clock.

The Republican Territorial Committee will hold its called meeting tonight at 7:30 in the Chamber of Commerce, for the purpose of effecting the permanent organization of the Republican party, as outlined in the rules and regulations adopted by the convention held in Honolulu last May.

A permanent chairman and permanent secretary will be elected and plans broached for an aggressive campaign from now on until election day in November. Several committees will be appointed by the permanent chairman, namely, the executive, rules, finance, organization and others which may be deemed necessary for the successful carrying on of the campaign. A probable feature will be that of subdividing the islands into sections which can easily be reached by the speakers who will be sent out primed to the muzzles with Republican truths.

It is anticipated that a call will be issued at once by the permanently organized committee for primaries for the purpose of electing delegates to the conventions on each island. In these conventions the nominees for the Legislature will be chosen.

George W. Smith will make a hard fight for permanent chairman. For the secretaryship, Eugene R. Hendry will probably make the strongest race.

A few members of the committee came down from the other islands on Saturday and yesterday, but most of them sent their proxies to Honolulu members. From these proxies the indications point strongly to the election of the two gentlemen above named. Mr. Howell, from Hana, Maui, and H. P. Baldwin, from the same island, are both here and will attend the meeting tonight. No one in person is here to represent Kau, Kona or Hilo. The four Kailua delegates sent in their proxies.

The entire delegation, with the exception of W. C. Achi, who is in Kona on business, will be on hand to cast their personal votes.

As soon as the chairman can arrange his committees, the speakers will be put in the field to follow up the proselyting tours of the "solid three," Wilcox, Kauai and Kailua, and instruct the native mind as to the real truth of the greatest of the political parties.

## HAWAII PERSONALS.

**Movements of People Wellknown Here and in Hilo.**

The following notes are from the Hilo Herald and Tribune:

A. Olsen, a contractor and builder, late of Hilo, arrived here on the Robert H. Hendry Saturday, and will establish himself in business as soon as he can find satisfactory quarters.

Roderick Ross, of Puna, returned last night after a short vacation in California.

A private letter from Mrs. Trowbridge of Olua contains information to the effect that her daughter Katie underwent operations on her hip and eyes on June 27 and is doing well. Mrs. Trowbridge and family will return to the island in a few months.

Edwards Evans, of Honolulu, who spent the Fourth in Hilo, is so well pleased with the outlook that he intends establishing a business here.

Edward Allen Horan and Miss Johanna Degemeyer will be married by Rev. C. W. Hill at the residence of Mr. and Mrs. Henry H. H. on Saturday evening.

Miss Suttie will be bridemaid. Judge and Mrs. Wilder, accompanied by Miss Barnes, leave for Honolulu on the Kilauea. Mrs. Wilder and sister will go at once to their old home in Michigan to visit their father, who is seriously ill.

Dr. R. H. Reid and wife, late of Honolulu, arrived last night and will probably locate here.

F. C. LeBlond and wife and Hon. C. M. LeBlond leave for the Coast by the Roderick Dhu.

Florentin Souza, late manager of Hackett's coffee plantations, will open a business office in Hilo.

Captain Matsen has ordered the construction of two large lighters for use of vessels in the Matsen line.

Mrs. C. M. Hyde is visiting friends here. Miss Pinna Brickwood is a guest at R. A. Lyman's.

J. W. Mason is making a business trip to the Eastern States. Judge Lyman and family are spending the week at Kaimanua.

Mrs. George Dunn and three children are visiting at Mr. and Mrs. Vannatta's.

AUSTRALIAN  
FEDERATION

Views of a Prominent Tasmanian.

## E. T. MILES INTERVIEWED

Talks Entertainingly on the New Australian Commonwealth and its Future.

Hon. Edward T. Miles, the prominent Tasmanian who has come to Hawaii and may conclude to settle in this city and invest in property in the islands, takes exception to some of the statements in the article by James Bryce concerning Australian federation, that was printed in the Advertiser last week.

In an interview yesterday Mr. Miles was asked for his views concerning Mr. Bryce's article.

"Mr. Bryce is a clever writer and anything from him demands consideration," he said. "His article is a masterly review of the subject, but when he refers to the causes which delayed the acceptance of the Constitution by the Australian States, he is somewhat misleading."

"The question has been before the people of Australasia since 1891, but for some years Federation did not take hold of the hearts of the people, and was purely a subject for politicians to toy with. Later, when it became a people's question the elucidation of the financial problems of Australasia caused the delay."

"What were the financial difficulties involved in federating the Australian States?" was asked.

"The difficulty which besets nations as well as individuals—indebtedness. Had Australia been free from debt, the problem of federation would have been very simple, but no set of Colonies or States have ever before attempted to federate, carrying such an enormous debt. The public debt of Australia is, roughly, \$1,125,000,000, paying an average rate of about 2 1/2 per cent interest, and the different Colonies have always looked to their customs revenue to pay the interest on this enormous debt; customs revenue growing proportionately with the increase of debt. Upon the establishment of the Commonwealth, the right to collect customs revenue passes to the Federal Government; the States retain their debts, but lose the revenue upon which they have heretofore relied to pay interest, and are altogether dependent upon the Federal revenue, to maintain their solvency."

"But a Federal tariff can be framed that will meet the case and give to each State what it requires?" asked the reporter.

"No. That is just where the trouble arises. State revenues and State expenditures inevitably vary with the varying conditions of each separate State. These variations are beyond the control of Parliament and must be accepted as irreducible data of the problem. The revenue yielding power per capita of a State depends upon its consuming power in durable articles, and this is dominated by the relative proportion of adult males contained in it, and when we find, for instance, West Australia with 55.50 per cent adult males to total population, and South Australia with only 25.00 per cent, we realize the difficulty in framing a Federal tariff to meet the requirements of each and all of the States."

"With such disproportions in the adult male population of the various States, there is necessarily a considerable difference in the revenue per capita from customs. West Australia's customs revenue per head is about \$1, while New South Wales draws from this source only \$5.50, hence the difficulty in framing a uniform Federal tariff to meet all cases. Indeed, I do not believe the wit of man can devise a uniform tariff that will meet all cases. A tariff of \$5,000,000 would suit the case of New South Wales, which is practically a free trade colony, and draws \$2,000,000 annually from its land revenue, while a tariff of \$50,000,000 would not give back to West Australia what it surrenders to the Federal Government."

"It is supposed by the financial men of Australia that the tariff will be fixed between thirty and thirty-five million dollars. In that case New South Wales will have a surplus of \$5,000,000 annually from customs, and some of the other States will be faced with an alarming deficiency. Direct taxation is inevitable, and the form will probably be a tax on land and incomes. We have this form of taxation already in the Australian Colonies, but it will be largely increased, in those States losing customs revenue."

"What has Australia taken as the basis of its constitution?" the reporter enquired.

"Well, as far as it is possible for a federation of self-governing States, under a monarchy, to follow the lines of a republic, we have adopted the main features of the Constitution of the United States, and the Constitution of the Federal States of the United States, that with the experience and precedents of a century and a quarter, there is so much that can be adapted to present-day requirements. The Governor General will probably be appointed, and called to his Cabinet, the Premiers of the Federal States, the Federal Parliament will then be elected, and should meet for the despatch of business early in 1901. Thus we hope the new century will herald the birth of an Australian Commonwealth, destined to play an important part in the history of the twentieth century."

AT AUCTION  
BY WILL E. FISHER  
AUCTIONEER

NOTICE.

I will shortly sell additional fencing for Board of Health. Keep your eyes on my Auction "Ads." I will also very soon sell at Auction a valuable SCHOONER, in excellent condition. Time of sale will be published later.

WILL E. FISHER, Auctr.

At Auction.

TUESDAY, JULY 17,

AT 10 O'CLOCK A. M.

I will sell at Public Auction the valuable collection of exceptional varieties of

Palms, Fern, Potted Plants, Etc., Etc.

Of Mrs. J. A. Hassinger, at the residence, corner Keamoku and Young streets.

This collection is well known to many of the old residents of Honolulu, who appreciate the rareness of the varieties. The plants are in perfect condition, being in suitable tubs, etc., ready for transportation. All of which are on exhibition and may be seen before day of sale.

Further particulars of

WILL E. FISHER, Auctr.

At Auction!

WEDNESDAY, JULY 18,
